education

This year marks the 25th Anniversary of the Americans with Disabilities Act. At SPC, the college's mission is critical to sustaining and growing opportunity and access; to protecting, inspiring, and mentoring; and educating about the piece of legislation which protected the rights of all individuals.

Working with the Pinellas Interagency Networking Council for Students (PINCS), Pinellas County Schools and multiple community partners, SPC's Disability Resources department will host an information fair from 12:30 to 2 p.m. Wednesday, Oct. 7, at the Clearwater Campus in the courtyard in front of the library.

A variety of organizations will be on-hand with valuable resource information.

For more information, call Aimee Stubbs at (727) 341-4510 or Jeff Zeigler at (727) 791-2710.
